PROFESSIONAL SUMMARY

Double-major undergraduate student in International Trade and Finance and Economics at Afyon Kocatepe University with a 3.20/4.00 GPA. Focused on capital markets, financial analysis, fixed-income securities, sustainable finance, macroeconomic data and quantitative analysis. Building finance and data capabilities through the Borsa Istanbul Student Training Program, TSKB Future of Finance Academy, IBM data analytics courses and a case study on Türkiye İş Bankası's sustainable Eurobond issuance. Career goal: specialize in financial analysis and portfolio management.

EDUCATION

Afyon Kocatepe University

International Trade and Finance & Economics — Double Major

Afyonkarahisar, Türkiye

- GPA: 3.20/4.00
- Exemplary Student Award, International Trade and Finance Department, 2025

PROJECTS

The Moat & Co. — Economic Moat Academy | themoateco.vercel.app

- Free, application-oriented web-based finance education project covering economic moats, ROIC, WACC, cash flows, industry and competitive analysis, 10-K footnotes, DuPont ROIC and reverse DCF through an eight-step curriculum.
- Includes Formula, Laboratory, Practice & Duel, Resources, AI Coach, Reverse DCF & CAP, DuPont & Spread comparison and SM-2 spaced-repetition components.

Case Study: Türkiye İş Bankası 500 Million USD Sustainable Eurobond Issuance

October 2025 — December 2025

- Role: Project Owner / Researcher.
- Analyzed the issuance from macroeconomic and bank-strategy perspectives; examined the financing opportunity created as Türkiye's CDS premium declined from 700 basis points to 260 basis points during a period of 50% domestic interest rates.
- Compared short-term, high-cost deposit funding with a five-year, fixed-rate external funding alternative priced at 7.75%.
- Evaluated ESG and sustainable-finance objectives, including decarbonization and support for women entrepreneurs, together with currency risk, natural hedging and liquidity risk.

CERTIFICATIONS & TRAINING

TSKB Future of Finance Academy, TSKB

2026

- Completed the academy and was subsequently selected as a mentee for the TSKB Mentorship Program.

Student Training Program (ÖEP), Borsa Istanbul

March 2026

- Intensive 2–13 March program covering capital-market fundamentals, exchange operations and the future of financial markets.

Data Visualization and Dashboards with Excel and Cognos, IBM

March 2026

- Excel and IBM Cognos Analytics for KPI dashboards, heat maps, treemaps and analytical reporting.

Python for Data Science, AI & Development, IBM

March 2026

- Python fundamentals for data structures, data analytics and artificial intelligence.

Excel Basics for Data Analysis, IBM

February 2026

- Data cleaning and structuring, formulas, PivotTables and data visualization.

Introduction to Data Analytics, IBM

February 2026
